Chatbot creation

The screenshot displays the IBM Cloud Watson Assistant console. The top navigation bar includes the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (S S V K Sahit's Account). The main content area is titled 'Watson Assistant' and includes a description: 'Watson Assistant lets you build conversational interfaces into any application, device, or channel.' Below this, there are two tabs: 'Create' (active) and 'About'. The 'Create' tab is divided into two sections: 'Select a location' and 'Select a pricing plan'. The 'Select a location' section shows a dropdown menu with 'Sydney (au-syd)' selected. The 'Select a pricing plan' section shows a table with two columns: 'Plan' and 'Pricing'. The table lists the 'Lite' plan, which is 'Free'. The 'Features' column for the 'Lite' plan includes: 'Everything you need to get started, free for as long as you need it', 'Up to 1,000 unique monthly active users (MAUs) chatting with your assistant', 'Up to 10,000 messages per month', and '--- Features ---'. The 'Pricing' column for the 'Lite' plan shows 'Free'. On the right side of the console, there is a 'Summary' panel showing details for the 'Watson Assistant' instance, including 'Location: Sydney', 'Plan: Lite', 'Service name: Watson Assistant-68', and 'Resource group: Default'. Below the summary, there is a warning message: 'Existing Lite plan instance. You can have only 1 Lite plan instance of this service per resource group. Delete your current Lite plan instance in Default resource group to create a new one, or view the existing instance.' At the bottom of the console, there is a checkbox for 'I have read and agree to the following license agreements:' and a 'Create' button.
